PROFESSIONAL SUMMARY

Pre-final year B.Tech IT student with strong foundations in Software Engineering, AI/ML, and Data Analytics. Hands-on experience through Infosys, Vodafone, and VOIS programs, along with industry-grade projects in AI surveillance and geospatial analytics. Proven problem-solver with exposure to global teams and real-world datasets. Actively seeking full-time roles and long-term opportunities.

EDUCATION

Velagapudi Ramakrishna Siddhartha Engineering College
B.Tech in Information Technology — Pre-final Year — Expected Aug 2027

Vijayawada, India
Sept 2023 – Present

TECHNICAL SKILLS

Software Engineering: Python, SQL, JavaScript, HTML, CSS, Full Stack Development

AI/ML & Analytics: Machine Learning, XGBoost, Data Analytics, Business Intelligence

Cloud & Security: Cloud Technologies, Cybersecurity, Oracle Data Platform

Business & Innovation: Design Thinking, Consulting, Strategy, Problem Solving

PROFESSIONAL EXPERIENCE

Infosys Springboard
Python Full Stack Development Intern — Pragati Cohort 6

Remote
Sept 2025 – Nov 2025

- Developed industry-grade web applications using Python and JavaScript
- Selected for competitive cohort based on academic and technical excellence

Vodafone VOIS – EDUNET
Data Analytics Intern

Remote
Sept 2025 – Oct 2025

- Completed a structured 6-week virtual internship with mentor-guided sessions
- Analyzed datasets using Python, SQL, and data science techniques
- Delivered insights for business intelligence use cases

McKinsey & Company
Forward Program Participant

Remote
Sept 2025 – Dec 2025

- Completed structured learning on problem-solving and business fundamentals
- Gained exposure to consulting-style case analysis

TECHNICAL PROJECTS

WatchGuard-AI: Context-Aware AI Surveillance System
AI/ML — Computer Vision — Cloud Architecture

Link
Dec 2025 – Jan 2026

- Built real-time weapon detection using YOLOv8 with risk scoring
- Reduced false positives using temporal confirmation
- **Tech:** Python, OpenCV, YOLOv8, Twilio API, Cloudinary

Identifying Vulnerable Vector-Prone Areas through Remote Sensing
Remote Sensing — GIS — Spatial Analysis

Link
Aug 2025 – Dec 2025

- Built a district-level RS-GIS framework using Landsat-8-derived NDVI, NDWI, NDMI, elevation, and LST to identify mosquito vector-prone regions.
- Applied GIS-based normalization and weighted overlay analysis to support data-driven public health risk assessment.

Web Platform for Freelance Services and Skill Matching
Full Stack Development

Link
Sept 2025 – Nov 2025

- Built a platform to connect freelancers and clients using skill-based matching
- Implemented front-end, back-end, and database integration
- **Tech:** Python, HTML, CSS, JavaScript, SQL

LEADERSHIP & ACTIVITIES

ACM SIGSPATIAL Student Chapter, VRSEC
Chairperson

Vijayawada
May 2025 – Present

- Organized and conducted technical and non-technical events
- Coordinated student engagement and outreach activities

NSS Volunteer – Report Writing & Events

ACHIEVEMENTS & CERTIFICATIONS

Finalist, SEED Business Challenge 2026 – global business strategy competition

Pragati: Path to Future – Cohort 6 (Infosys Springboard, Data Science)

Oracle Data Platform 2025 Certified Foundations Associate

Cisco – C, Python, Introduction to Cybersecurity

TCS – Communication Skills Certification

ADDITIONAL INFORMATION

Availability: Open to full-time roles and long-term opportunities (6+ months)

Preferred Locations: Hyderabad (Primary), Bangalore (Secondary), Open to other locations

Languages: English, Telugu, Hindi
